

IMK CONTAINERS

100kW Mobile Energy Storage Container Cooperation

Overview

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO4) combined with an intelligent 3-level battery management system (BMS);.

How can a mobile energy storage system help a construction site?

Integrate solar, storage, and charging stations to provide more green and low-carbon energy. On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

100kW Mobile Energy Storage Container Cooperation

[Container Energy Storage 100kw Solar Inverter,215kwh ...](#)

215KWH 100KW Commercial & Industrial Container ESS Hybrid Solar Energy Storage System 1 energy density We combine high energy density batteries, power conversion and control ...

[Learn More](#)

[100 kW/160 kWh-Commercial & Industrial](#)

AlphaESS and Hengtong Group provided a 100 kW/160 kWh energy storage system for the Suzhou Metro Line 4 bus station, integrating photovoltaic and storage to power ...
