

# **100kWh East Asia Solar Container Used at Airport**

## Overview

---

What is a mobile solar PV container?

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates.

Does ACI ASIA-PACIFIC promote onsite solar energy for airports?

On airports decarbonisation journey, ACI Asia-Pacific has been promoting the use of renewable energy to airports since 2017. Results from ACI Asia-Pacific Environment Survey 2021 showed that 33% of the respondents implemented onsite solar energy, ranked 3rd in GHG / carbon reduction measures, for those airports with onsite solar energy measures.

What is HJ mobile solar container?

The HJ Mobile Solar Container comprises a wide range of portable containerized solar power systems with highly efficient folding solar modules, advanced lithium battery storage, and smart energy management.

Why do airports need solar energy?

Solar is one of the most convenient source of renewable energy for Airports. The plain topography, presence of flat building roofs and nature of Airport operational requirements favors solar PV as compared to other sources of renewable energy. Solar PV projects are also a visible means to demonstrate the implementation of environmental policies.

## 100kWh East Asia Solar Container Used at Airport

### [Airport Solar PV Implementation Guidance Document](#)

Solar is one of the most convenient source of renewable energy for Airports. The plain topography, presence of flat building roofs and nature of Airport operational requirements ...
