

12V to 220V home appliance inverter

Overview

What is a 12V inverter?

A 12V inverter is an electronic device that converts 12V DC power into 220V AC power. This type of inverter is typically used to convert automotive or other 12V DC power sources into standard household or industrial power to power a variety of devices. [inverter.com](https://www.inverter.com) provides inverters from 300w to 3000w.

What is a 12V 300 watt inverter?

12V 300-watt power inverter for sale. The modified sine wave inverter delivers 600-watt peak power and converts 12V DC from battery or car lighter to AC 110V or 220V household power. Come with a USB port, 12V to 110V inverter can be a universal outlet for fast-charging electronic devices.

What types of inverters are available?

We offer a variety of specifications and models of inverters to meet your power needs, whether for home, automotive, or travel purposes. The Leaptrend Sirius series 3000W 12V Pure Sine Wave Inverter is perfect for most off-grid systems, whether for a van, RVs, trucks, boats, yachts, coffee van inverter or any remote location needing power.

What is a 1000 watt 12V power inverter?

1000 watt 12V power inverter for sale, input voltage DC 12V, continuous power 1000W and unload current less than 0.8A. Comes with a USB port, and the 12V to 110V inverters' max efficiency reaches 90%, works at (-10°C, 50°C), and stores at (-30°C, 70°C). Modified sine inverter is compatible with air conditioners, washing machines, ovens, and so on.
