

15k solar inverter

Overview

What is a Sol-Ark 15K hybrid inverter?

The Sol-Ark 15K All-In-One Hybrid Inverter combines battery charging, MPPT (Maximum Power Point Technology), grid pass through, and sell back capabilities. It's a powerful inverter. It can power an entire home with 12-15kW continuous power from batteries and solar, or it can provide up to 48kW continuous power from the grid.

How many inverters can a Sol-Ark 15K inverter run?

The Sol-Ark 15k all-in-one hybrid inverter takes up to 19.5kW from solar and outputs up to 15kW to power loads. It includes three MPPTs with two strings each and rapid shutdown capabilities. It can back up an entire home during a power outage, and it's possible to wire up to 12 inverters in parallel for commercial or industrial applications.

What is a Sol-Ark 15k-2p-n solar inverter?

This inverter is designed to maximize your solar power production while providing reliable backup power during grid outages. With its advanced features like SmartSensor™ and AI-powered smart load management, the Sol-Ark 15K-2P-N optimizes your energy output and helps you save on electric bills.

What is a Sol-Ark 15K?

The Sol-Ark 15K represents a significant evolution in residential power management technology. Unlike traditional backup systems that simply switch between grid and battery, this hybrid inverter actively manages multiple power sources while participating in grid stabilization programs.
