

# 21700 solar container lithium battery 24 cells

## Overview

---

What is a 21700 battery?

A 21700 battery is a high-capacity, rechargeable lithium-ion cell designed for superior energy efficiency and performance. With a standard size of 21mm in diameter and 70mm in length, these batteries were developed as a next-generation improvement over 18650 cells, offering increased power output, extended runtime, and higher energy density.

What is a Samsung lithium ion battery 21700?

Among the most trusted options in the market today are Samsung 21700 cells, known for their superior energy density and long cycle life. This article offers an in-depth look at the features, applications, and benefits of the Samsung lithium ion battery 21700, helping commercial users make informed sourcing and engineering decisions.

What is an unprotected 21700 battery?

Unprotected 21700 Batteries: Designed for battery packs or high-performance applications where external battery management systems (BMS) handle protection. 21700 batteries are becoming the industry standard for devices requiring longer runtime and more power. Some common applications include:

Who makes 21700 Li-ion batteries?

Sunpower New Energy manufactures high-quality lithium-ion 21700 batteries, with UL, CB, and UN38.3 certifications. MOQ=2. Get Quotes for 21700 li-ion batteries.
