

635W solar panel rated power

Overview

What is a Jinko 635w solar panel?

The Jinko 635W Solar Panel from the Tiger Neo 66HL4M-V series is designed with cutting-edge N-type monocrystalline technology. With power outputs ranging from 610W to 635W and a maximum module efficiency of up to 23.51%, it provides a highly efficient solution for both commercial and residential solar installations.

Who makes TW 66hs615-635w solar panels?

Note: Your Enquiry will be sent directly to Shinson Technology Co., Ltd. Product is no longer manufactured. Tongwei Co., Ltd. (TW Solar) Solar Panel Series TWMNH-66HS615-635W. Detailed profile including pictures, certification details and manufacturer PDF.

What is Jinko Solar 610-635w mono-facial module?

Jinko Solar 610-635W Mono-Facial Module features HOT 3.0 Technology with Tunnel Oxide Passivating and N-type modules for better reliability, low light efficiency, and degradation resistance. The module has a durable design against mechanical load and extreme environments, meeting IEC standards.
