

IMK CONTAINERS

Antwerp Belgium ground energy storage power station

Overview

What is the power rating of the Antwerp battery project?

The Antwerp battery project has a power rating of 25 MW and capacity of 75 MWh. The installation will be operational by the end of 2024. The project uses 40 Intensium Max High Energy lithium-ion containers supplied by Saft. TotalEnergies has a portfolio of 450,000 BtC and 100,000 BtB electricity sites in Belgium.

Does totalenergies have energy storage projects in Belgium?

Download the Press Release TotalEnergies has launched an energy storage project at its Antwerp refinery (Belgium) with a power rating of 25 MW and capacity of 75 MWh, equivalent to the daily consumption of close to 10,000 households. A First Flagship Energy Storage Project in Belgium.

Where is totalenergies launching a battery farm project?

Paris – TotalEnergies has launched at its Antwerp refinery (Belgium), a battery farm project for energy storage with a power rating of 25 MW and capacity of 75 MWh, equivalent to the daily consumption of close to 10,000 households.

What is the largest energy storage project in Europe?

A First Flagship Energy Storage Project in Belgium After commissioning four battery parks in France offering total energy storage capacity of 130 MWh, this project will be the Company's largest battery installation in Europe.
