# Are bifacial solar panels anti-dumping

## Overview

---

Will bifacial solar panels be removed from safeguard tariffs?

A notable pivot in policy is the imminent removal of the bifacial module exclusion under Section 201. Bifacial solar panels, which are predominantly used in utility-scale projects, have enjoyed an exclusion from safeguard tariffs.

Are bifacial solar panels subject to tariffs?

Bifacial solar panels generally used in utility-scale solar projects are not currently subject to safeguard tariffs under Section 201 of the Trade Act of 1974. After the Trump administration implemented an exclusion for bifacial modules, they now make up almost all U.S. solar panel imports, the White House said.

Will bifacial solar panels lose exemption?

In addition to bifacial panels losing their exemption, the Biden Administration said it will raise the tariff-rate quota (TRQ) of silicon solar cells by 7.5 GW, if needed.

Did Biden put bifacial solar panels back under Sec 201 tariffs?

The Biden Administration today put imported bifacial solar panels back under Sec. 201 tariffs, after the specialty solar panels enjoyed a two-year exemption from extra duties first initiated by President Biden in 2022.
