

Asia-Pacific solar Energy Storage

Overview

Why did Energy Storage Summit Asia move from Singapore to Manila?

Returning for its third edition in 2025, the Energy Storage Summit Asia relocated from Singapore to Manila, in the Philippines. This shift reflects the country's emergence as a leader in energy storage deployment following the inaugural Green Energy Auction 4- the first auction to integrate Renewable Energy and Energy Storage Systems (IRESS).

Will India see a demand for energy storage systems in Asia-Pacific?

The JV intends to offer the solution to ReNew, with 150 MWh BESS required for its 300 MW peak power project in Karnataka. Therefore, based on the above mentioned factors, India is expected to witness significant demand for energy storage systems market in Asia-Pacific region.

Is energy storage a bumpy ride in Asia?

By Ganesh Padmanabhan, Head of Project Finance, Jern Siew, Executive Director, Project Finance (Australia), and Suvro Sarkar, Senior Vice President, Group Research (Energy Sector), DBS Bank. As Asia gears up for a shift to renewable energy, energy storage has come to the fore. But the transition to cleaner power can be a bumpy ride.

What are Australia's energy storage projects involving solar and wind?

Australia's storage projects have historically focused on standalone BESS, but in recent years, there has been a rise in projects involving solar and wind coupled with BESS that are expected to be commissioned in the next two years.
