

# Austria RV Battery BMS Wholesale

## Overview

---

What is a battery management system (BMS)?

This device manages a real-time control of each battery cell, communicates with external devices, manages SOC calculation, measures temperature and voltage, etc. (see key features on the right bar). The choice of BMS determines the quality and lifespan of the final battery pack.

Why should you choose a BMS-Matrix® battery pack?

The choice of BMS determines the quality and lifespan of the final battery pack. Our BMS-Matrix® technology is a totally modular BMS solution, allowing you to build a very large capacity or power battery from unit “energy bricks”.

What is BMS-Matrix®?

BMS-Matrix® can be embedded in medium power applications ( e-mobility, off-grid and standalone applications, robotics & AGV, etc.). For stationary batteries or high power traction batteries, BMS-Matrix® is a must-have technology. Communication by CAN bus, CAN Open, WIFI, 4G. Battery Management System is essential in a Lithium-Ion battery system.

## Austria RV Battery BMS Wholesale
