

# **Bangladesh lithium energy storage power supplier**

## Overview

---

Will Bangladesh's first lithium battery plant strengthen its industrial sector?

Ali Reza Iftekhar, managing director and CEO of Eastern Bank, which is the mandated lead arranger for the loan, said the establishment of Bangladesh's first lithium battery plant will not only strengthen Bangladesh's industrial sector but also aligns with the global shift toward clean and sustainable energy solutions.

Where is Bangladesh lithium battery based?

Bangladesh Lithium Battery Limited, an innovative enterprise, is all set to establish a state-of-the-art plant in Bangabandhu Sheikh Mujib Shilpa Nagar in Mirsarai, Chattogram.

Why should you invest in Bangladesh lithium-ion battery market?

The Bangladesh lithium-ion battery market is experiencing significant growth and diversification. Partnering with local firms, emphasizing high-quality battery production. Longstanding reputation in battery manufacturing ensuring quality assurance. Focus on innovation and strategic partnerships to enhance market presence.

What are lithium batteries used for?

Lithium batteries are used in large-scale energy storage systems, such as grid energy storage, to store renewable energy from sources like solar and wind. These systems help balance power supply and demand, stabilise electrical grids, and provide backup power during outages.
