

Barbados solar Glass Greenhouse

Overview

What is a greenhouse integrated PV (gipv) module?

Get in touch! Traditional greenhouses rely on external fossil fuel derived energy sources to power lighting, heating and forced cooling. Specially designed BiPV solar glass modules for greenhouses, Heliene's Greenhouse Integrated PV (GiPV) modules offer a sustainable alternative with no additional racking or support required.

How big is the greenhouse horticulture market?

The blooming greenhouse horticulture market is expected to reach \$50 billion by 2028. At the same time, energy costs, grid constraints and public policy are fueling growth in on-site solar generation. Ready to go green and grow more with Heliene's agrivoltaic modules?

.

What is a BOM group solar greenhouse?

The Bom Group Solar Greenhouse offers the best of both worlds! With the Bom Group Solar Greenhouse, it is possible to grow flowers, plants and / or vegetables on the one hand, and to generate electricity on the other.

What is a Venlo greenhouse?

Venlo greenhouses are known for their galvanised steel and aluminium frame. The glass Venlo greenhouses are suitable for all kinds of cultivation and every climate. Bom Group offers the Twinlight® for this greenhouse type. The innovative Twinlight® construction with its smart cross-connection enables greenhouses with taller column heights.
