

Battery cell perc module price

Overview

When will PERC & BC modules be available in Europe?

In Europe, the public pricing for PERC modules will be cancelled from May 2025. In Europe, the public pricing for BC modules (residential and C&I) will be added from June 2025. InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price.

How much does a mono PERC module cost?

According to buyer sources, Mono PERC modules assembled in the U.S. with imported cells are currently priced between the high \$0.20s/W and low \$0.30s/W, while a distributor source cited a quote of \$0.27/W for U.S.-assembled Mono PERC modules.

When will the 182mm Price Report be based on PERC?

Weekly spot price report for 182mm modules will be based on the 182*182-210mm format from June 2024 onwards due to the slim price gap among varying formats. Prices for Chinese project will be prices for TOPCon modules instead of PERC from April 2024 onwards.

When will PERC modules be cancelled?

In the U.S., the public pricing for PERC modules will be cancelled, and the pricing for domestically produced TOPCon modules will be added from May 2025. In Europe, the public pricing for PERC modules will be cancelled from May 2025. In Europe, the public pricing for BC modules (residential and C&I) will be added from June 2025.
