

Battery constant temperature battery cabinet automatic

Overview

What is a constant temperature battery cabinet?

Introduction: Constant-temperature Battery Cabinet is a good cabinet used for outdoor battery, with the wind, rain, sun, corrosion resistance and good anti-theft function, good environment adaptability, can maximum limit reduces the required power for the environment. Keeping the battery temperature below 25°C is important to the battery life.

What are the features of a battery cabinet?

The cabinet is outdoor-rated with automatic, temperature-controlled cooling fans (120VAC) to keep batteries operating at optimal temperature. The cabinet ships pre-assembled for simple plug & play installation.

What temperature should a battery be kept at?

Keeping the battery temperature below 25°C is important to the battery life. Uniformity of the batteries' temperature is a priority. Cooling must be adjusted based on different scenarios.

Why should you choose a battery cabinet?

Our battery cabinets are sophisticated and offer modular solutions that can withstand even temperatures and earthquakes when it matters. **VENTILATION:** Our cabinets are specially designed for the use of stationary batteries. One important factor here is ventilation, both for cooling and for the removal of hydrogen (H₂).
