Bess battery storage for sale in Lithuania

Overview

Why are battery energy storage systems important in Lithuania?

“Power generation from renewables is growing in Lithuania, which makes battery energy storage systems an important guarantee of [grid] reliability,” said Ignitis Group CEO Darius Maikštėnas.

Will ignitis install a battery energy storage system in Vilnius?

Vilnius-based utility Ignitis Group will install 291 MW/582 MWh of total battery energy storage system (BESS) capacity at two of its wind farms and at a hydro site, with commercial operation expected in 2027.

Who is supplying Bess power in Lithuania?

Lithuanian utility Ignitis Group has announced plans to develop 291 MW/582 MWh of BESS capacity at three of its clean energy sites and said the equipment will be supplied by Germany-based Rolls Royce Solutions GmbH.

Where will Bess be installed?

Announcing a €130 million (\$153 million) investment into the three sites on Tuesday, Ignitis said BESS would be installed at wind farms it operates in Kelmė and Mažeikiai and next to the Kruonis Pumped Storage Hydroelectric Power Plant, which is also operated by an Ignitis company.
