

# Blade battery liquid-cooled energy storage cabinet

## Overview

---

What is a short-blade CTR energy storage system?

Based on the 350Ah lamination short-blade battery cells, the industry's first short-blade CTR energy storage system has been introduced, further advancing space efficiency, cost-effectiveness, and full-life-cycle performance.

What is the 836kwh eflex flex battery storage cabinet?

Complete technical details and specifications for the 836kWh eFLEX BESS Liquid Cooled Battery Storage Cabinet system. Industrial facilities and urban areas often struggle to find space for large-scale energy storage solutions. The eFlex 836kWh system is designed to fit into even the most compact spaces.

What makes Aceon a good battery storage system?

Equipped with MSD fuses and intelligent Battery Management Units (BMUs), it delivers a safe and stable energy storage solution for even the most demanding environments. AceOn's battery storage systems rely on advanced LFP chemistry to provide a combination of high-power performance, low cost, and industry-leading safety.

How scalable and customisable energy storage solutions do you need?

You need scalable and customisable energy storage solutions that fit your specific needs. The eFlex 836kWh system offers unmatched flexibility. With the ability to connect up to 6 packs, it can easily scale from 520kWh to 836kWh, meeting the demands of a variety of projects.
