

Brazzaville solar Tile Supplier

Overview

Who can install the Marley solteq solar tiles?

Due to the complexities and risks associated with solar installations , only recognised PV Green Card and SolteQ Approved Installers or Agents may purchase and install the Marley SolteQ PV Solar Tiles with their own approved roofing contractors.

How does Marley solteq PV tile compare to a standard-PV-module?

Unparalleled efficiency when compared to a Standard-PV-Module - due to the light-trap prism glass the Marley SolteQ PV Tile will start generating power earlier in the morning and longer during twilight, whilst a conventional solar panel is still "sleeping" or "shutting down".

Is a solar installation legal in South Africa?

This document can in turn be used as proof of compliance for insurance, finance, and regulatory purposes. In summary, this recognises the solar installation as legal and meeting all the requirements as set out by PV Greencard and SAPVIA (Photovoltaic Association of South Africa)
