

# Canadian 30kw high quality inverter merchant

## Overview

---

How many inverters can a 30kW inverter support?

The adaptable and flexible design enables easy expansion from 30kW to an outstanding 300kW, meeting your increasing energy demands with up to 10 inverters in parallel and 16 batteries per inverter. With our lightning-fast 5ms transfer backup, you can enjoy uninterrupted power and keep your business running even during grid interruptions.

How is Canada's solar inverter market influenced by global trends?

Furthermore, Canada's solar inverter market is influenced by global trends, such as the push for energy independence and the transition to electric vehicles. Understanding these dynamics can help stakeholders make informed decisions about partnerships, investments, and market entry strategies.

Which inverter is suitable for grid-tied and backup applications?

Our inverter is suitable for grid-tied and backup applications, because of its powerful 200A grid pass-through capability. You are making a simpler installation by using the native 120/208V 3-phase output, which is perfect for light commercial buildings.

Who is Canadian Solar Inc?

CANADIAN SOLAR INC. is committed to providing high quality solar products, solar system solutions and services to customers around the world. As a leading PV project developer and manufacturer of solar modules with over 33 GW deployed around the world since 2001, Canadian Solar Inc. is one of the most bankable solar companies worldwide.
