

Canberra solar Energy Storage Investment Project

Overview

Does solar energy storage make economic sense in Canberra?

Whether or not solar energy storage makes economic sense for your home in Canberra depends first and foremost on whether or not you already have a solar system, and if you do whether or not you have access to a Territory-supported solar feed-in tariff.

Are solar panels a good investment in Canberra?

In Canberra, the sun is nearly a constant thing. Because it's so sunny here, solar panels are one of the best investments you can make. If you're a homeowner who is considering solar power for your home, or if you're a salesperson who wants to provide the best solar panel systems to customers, Supply Installed has you covered.

Why should I invest in the Big Canberra battery?

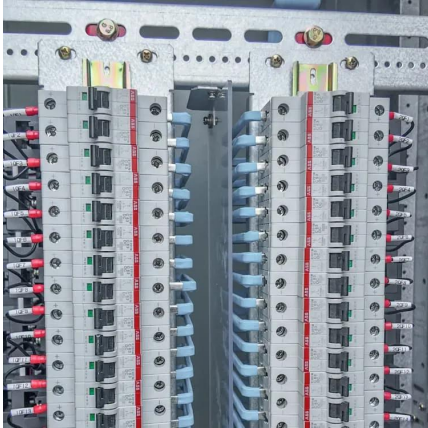

By investing in projects like the Big Canberra Battery, we're supporting economic growth, generating an ongoing supply of reliable revenue, creating local jobs, and attracting new investment in clean technology. Our partnership with Eku Energy is a crucial step in the fight against climate change.

Will big battery power a third of Canberra households in 2025?

Canberra Times: ground breaking ceremony, plugging in profits from a big battery. ITP Renewables was engaged by Eku Energy to provide expert planning support throughout the development and delivery phases of the 250 MW Big Canberra Battery system, which will begin powering one-third of Canberra households from 2025.
