

IMK CONTAINERS

Canberra solar panel wholesaler

Overview

How many solar panels are installed in Canberra?

Over 11,281 small-scale systems have been installed in Canberra, ACT with a collective capacity of 10,631 kW. Around one in ten households in Canberra, ACT, generates solar power through rooftop installations, contributing to the territory's goal of reaching and maintaining 100% renewable energy.

Who are the best solar panel manufacturers in Canberra?

We offer globally recognised solar panel manufacturers, including Canadian Solar, JA Solar, Jinko Solar, LONGi, Risen and Sharp Solar. These leading brands are known for their high-efficiency panels suited for commercial applications, delivering superior performance in Canberra's climate while offering advanced technology and reliable durability.

Are solar panels a good investment in Canberra?

Yes, solar panels are a good investment in Canberra. With 4.8 sun hours per day, households can lower electricity bills and increase energy independence. Self-consumption is the key to savings, as feed-in tariffs (FiTs) are low (7-10c/kWh). Payback period: Typically 4 to 8 years, depending on system size and usage patterns.

How much does a solar system cost in Canberra?

Solar Choice regularly publishes articles with indicative pricing for PV systems in Australia's capital cities (including Canberra) in our Solar Choice Price Index. Based on the price index data from March 2025, we can see that in Canberra a typical 6 kw solar system would cost \$5,420 on average after deducting the STC rebate and including GST.
