

# China portable power station in Doha

## Overview

---

Where is Qatar's new power plant located?

The project is set to be built in the Ras Abu Fontas Industrial Zone, located south of Doha. Designed to address Qatar's rising electricity demand during peak summer months, the project was fast-tracked by QEWC.

What is Al Kharsaah photovoltaic power station?

The 800-megawatt Al Kharsaah photovoltaic (PV) power station in Qatar was put into operation on Oct 18. Generally contracted by Power Construction Corporation of China (POWERCHINA), the station is the first non-fossil fuel power station in the country and one of the largest PV power stations in the Middle East.

Why is powerchina a green power station?

During construction, POWERCHINA adhered to green engineering and made detailed plans to protect local plants and wild animals. As a part of the Qatar 2030 National Vision, the power station is expected to meet 10 percent of the country's peak electricity demand.

Why did QEWC build a gas turbine generator in Qatar?

Designed to address Qatar's rising electricity demand during peak summer months, the project was fast-tracked by QEWC. It includes the design, procurement, construction, and commissioning of two advanced F-class gas turbine generator units along with supporting auxiliary systems.
