

# Construction of new solar module project in Nairobi

## Overview

---

Who is constructing a solar power plant in Kenya?

French firm Volitalia is the contractor for the engineering, procurement and construction (EPC) of the third largest solar power plant in Kenya, with a capacity of 100 MW. The electricity from the plant will be sold to KPLC at US\$0.12 per kWh.

Why should Kenya build a photovoltaic power plant?

It is expected to generate about 76.473-million-kWh electricity annually, meanwhile, help reduce local carbon dioxide emissions by about 64,190 tons and coal use by about 24,470 tons. Besides, the construction of the photovoltaic power plant project in Kenya will bring huge economic and social benefits along.

Where is a photovoltaic power plant located in Kenya?

This photovoltaic power plant project in Kenya will be located in the Garissa County, with a preferential loan of 13 billion Kenyan shillings (about 128 million US dollars) by the Export-Import Bank of China.

Will a 50MW photovoltaic power plant help solve Kenya's electricity crisis?

In the coming days, this project would help resolve the short supply, the uneven distribution and the high price of electricity in Kenya. comment↓ A 50MW photovoltaic power plant project in Kenya will be built in Garissa County, expected to generate 76.473-million-kWh electricity annually.
