

IMK CONTAINERS

# Cost of a 100kW collapsible container for Australian farms

## Overview

---

How much does a 100kW Solar System cost?

As per the table, the average cost of a 100kW solar power system as of August 2024 is \$87,920 including GST and the STC upfront rebate. The graph below – from our Commercial Solar PV Price Index – shows average price trends for 100kW solar systems since Solar Choice started keeping track in May 2014.

What is a 100kW solar package?

Our 100kW solar package provides steady and reliable power for every part of your business, with tier 1 solar panels in a massive configuration and a serious 100kW solar inverter.

Is a 100kW Solar System a good investment in Australia?

With broad areas that receive consistent sunlight, it's an excellent place for commercial 100kW solar system installation in Australia. Although Melbourne is known for its unpredictable weather, a 100kW system can still be a good investment, given the state and federal incentives for renewable energy.

Where can I install a 100kW Solar System in South Australia?

South Australia is renowned for its abundant sunshine, making it an ideal location for a 100kW solar system installation. The state offers various incentives to businesses willing to go solar, providing a favorable environment for such investments. Adelaide, the capital city of South Australia, is another hotspot for solar installations.
