# Costa Rica 5g solar container communication station 100KWh

## Overview

---

Does Costa Rica have a 5G network?

Liberty and Ericsson launch 5G SA network in Costa Rica, supporting digital growth across healthcare, tourism, and more. Costa Rica has launched its first 5G Standalone (SA) network, marking a significant milestone in the country's digital transformation. The deployment is part of a six-year agreement between Ericsson and Liberty Latin America.

What does 5G Sa Mean for Costa Rica & Central America?

The deployment of the first 5G Standalone (5G SA) network in Costa Rica and Central America marks a transformative milestone, utilizing a fully 5G-native infrastructure without relying on 4G elements.

Who is deploying 5G in Costa Rica?

Liberty and Ericsson have signed a strategic contract to deploy the first 5G Standalone (5G SA) mobile service in Costa Rica, marking a milestone in the Digital Transformation of the country and the Central American region.

How will Liberty & Ericsson transform Costa Rica?

With this six-year strategic contract, Liberty and Ericsson demonstrate their commitment to the development of Costa Rica through its Digital Transformation process, paving the way for enhanced connectivity, increased network capacity and improved user experiences enabled by 5G technology.
