# Costa Rica Solar Power Generation and Energy Storage Agent

## Overview

---

Are there private solar companies in Costa Rica?

There are many private companies, most of them members of ACESOLAR (Costa Rican Solar Energy Association), and the CDG (Chamber of Distributed Energy Generation of Costa Rica). They have changed the current legislation opening the market and allowing more solar panels and batteries to be installed.

Is Costa Rica a leader in solar energy in Central America?

Research by the International Renewable Energy Agency (IRENA, 2020) identifies Costa Rica as a potential leader in solar energy within Central America, given its high solar potential averaging 4.5-5.5 kWh/m<sup>2</sup>/day, yet notes that policy incentives lag behind those for other renewables.

Can solar power diversify the energy mix in Costa Rica?

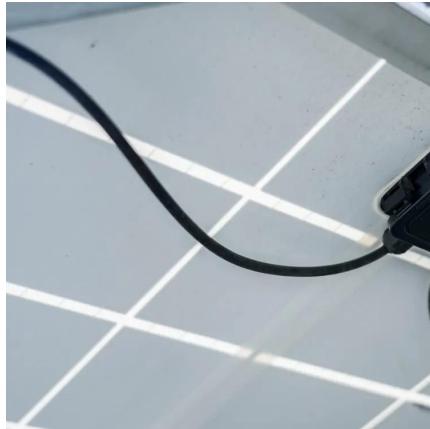

While hydroelectric power dominates the energy mix at approximately 80% of electricity production, solar energy, though currently a smaller contributor, holds significant potential to diversify and stabilize the grid. This paper investigates Costa Rica's renewable energy journey, emphasizing solar power's evolving role.

Can solar power improve Costa Rica's energy security?

Solar energy, though currently a minor player, offers untapped potential to enhance Costa Rica's energy security. The country's tropical climate ensures consistent sunlight, making solar PV systems ideal for both utility-scale and distributed generation.
