

IMK CONTAINERS

Drilling site photovoltaic container DC discount

Overview

What is a solar panels on shipping container?

It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability.

How much does a DC block cost in China?

Across 13 companies shortlisted, the bid prices ranged from CNY430-960 per kWh, or US\$59-132 per kWh, according to Chinese metals market intelligence and price reporting agency (PRA) Shanghai Metals Market (SMM). The note said that the results showed that DC block prices 'remained stable overall'.

How long does it take to ship a solar container?

Standard solar container models can be manufactured and ready to ship in as little as 4-6 weeks. Customized configurations can take up to 8-10 weeks, with shipping times varying by destination. Do you offer after-sales support for mobile solar PV containers?
