

Egypt s new industrial and commercial energy storage equipment manufacturer

Overview

What's going on with Egypt's solar project?

Work is underway on a 1.1 GW solar project with 100 MW/200 MWh of accompanying battery energy storage in Egypt. The first phase of the project is scheduled for commercial operation during the first half of next year.

What is Egypt's first hybrid solar and battery project?

The project, billed as Egypt's first hybrid solar and battery project, will be built in two phases. The first will see 561 MW of solar constructed alongside 100 MW/200 MWh of battery storage, with a targeted date for commercial operation in the first half of next year.

What is Egypt's energy industry?

The main sectors in this industry are oil, natural gas, hydro-power, and solar and wind power. Oil dominates Egypt's energy industry, with the country producing as much as 0.9 million barrels of oil each day. The proven oil reserves on which Egypt sits on are among the largest globally, estimated to be 3.7 billion barrels.

Who is the Egyptian company for engineering and Metal Industries?

The Egyptian Company for Engineering and Metal Industries is a modern company in the field of aluminum extrusion in Egypt that uses the latest technology in manufacturing equipment and quality control. It was established in 2018 and the actual production started at.
