# Finnish energy storage vehicle prices

## Overview

---

How much does a car overhaul cost in Finland?

The estimated costs for a Finnish operator are 585 €/year for all the vehicles . Midlife overhaul costs include the costs of partial or complete replacement of the major propulsion components of the vehicle due to deterioration.

How much does a vehicle inspection cost in Finland?

Specific maintenance costs. As far as inspections are concerned, the majority of tests on vehicles must be conducted annually, provided that no problems or malfunctions arise during the period between the scheduled checks. The estimated costs for a Finnish operator are 585 €/year for all the vehicles .

Why is Finland taking a lukewarm approach to EV tariffs?

Finland has a close trading relation with the Asian EV giant, which is among its five leading import partners. Worries surrounding a potential commercial retaliation from China regarding EU-imposed EV tariffs have therefore contributed to Finland taking a lukewarm approach to the issue, like many other member states.

How much does a truck driver make in Finland?

Considering the drivers' wage, the average gross hourly salary for a truck driver is about 22.50 €/h according to Finnish statistics . In most cases, costs associated with drivers are neglected, as they are the same for the three powertrain options.
