

Foldable Container Hybrid Type for Oil Platforms

Overview

What is a seafold HC 40?

Please Wait. A password will be e-mailed to you. Compact Container Systems (CCS) has launched the SeaFold HC 40' container, the world's first five-in-one, foldable shipping container to improve operating inefficiencies, reduce unnecessary container movements, and reduce carbon emissions throughout the transportation and logistics supply chain.

What are oil platforms?

They are equipped with the necessary machinery and facilities to support offshore energy production. Or "Oil platforms are large structures used for drilling and extracting oil and gas in lakes, coastal waters, and on the continental shelf, often connected to remote wells.

Could a five-in-one foldable container design boost efficiency?

A five-in-one foldable container design certified by the International Geneva-based International Standard Organization (ISO) could boost efficiency and transform the carriages of empties, claims Florida-based Compact Container Systems (CCS). The SeaFold container opened out and stacked Credit: Compact Container Systems.

What is an offshore container?

Unlike standard shipping containers, offshore containers are engineered to withstand the unique challenges of sea transport. For example, rough handling, extreme weather and corrosive conditions—all whilst adhering to the strict safety requirements for offshore installations.
