

# **Full set of solar panel components manufacturers**

## Overview

---

What makes China's solar panel manufacturing industry unique?

In conclusion, China's solar panel manufacturing industry stands at the forefront of global renewable energy efforts, offering a vast array of high-quality products from leading manufacturers like Primroot.com, Jinko Solar, Trina Solar, and LONGi Green Energy.

Where are solar panels made in China?

Jiangsu Province is renowned as one of China's largest solar panel manufacturing hubs. Located on the east coast, it has the advantage of being near ports, which facilitates the ease of exporting solar panels. The province hosts a multitude of solar panel manufacturers in China, including Trina Solar, one of the world's largest.

Who is the world's largest solar panel manufacturer?

With over 300 GW of solar modules sold to date, JinkoSolar has been the world's largest solar panel manufacturer for five consecutive years, thanks in part to its vertically integrated production capacity, spanning from wafers to modules. Following closely are LONGi Green Energy and JA Solar, ranked second and third respectively.

How many solar module manufacturers are there in the world?

This insight comes from Wood Mackenzie's report, "Global Solar Module Manufacturer Ranking H1 2024", which analyzes over 38 solar module manufacturers from 11 countries. While the report focuses on the first half of the previous year, its findings offer a comprehensive look at the current state of the industry.
