Generator container price

Overview

What is a container generator?

Our Container Generator offers exceptional quality within the Diesel Generator category. A diesel generator comprises an engine, alternator, fuel system, cooling system, and exhaust system. Each component plays a critical role in generating electricity efficiently. For specific insights on customization and usage, consult a well-known manufacturer.

Where can I buy a genset container?

The genset can also be attached to the chassis of the container, in these cases, it is called an underslung genset. Here at Alconet, you can buy a genset container both new and used. Take a look at our current offer down below, or request a quote directly to receive a price inquiry.

How much does it cost to ship a generator?

The cost to ship a generator can vary quite a bit, from a few hundred dollars for a small, residential standby generator, to thousands of dollars for a large industrial generator. Shipping costs are typically charged at a per-mile rate.

How much does a generator cost?

The cost of a generator varies depending on its size. A small generator can be had for \$30,000-\$40,000 new, while larger ones can retail for anywhere from \$100,000 to \$500,000 or more. A good rule of thumb in sizing the generator is 50 kW plus 10 watts per square foot.
