

Guinea Communications upgrades 5g base stations

Overview

How many 5G base stations are there in China?

The number of 5G base stations in China exceeded 4.39 million as of the end of March, with the user penetration rate reaching 75.9 percent, the Ministry of Industry and Information Technology said, according to the Xinhua News Agency.

Why did GETESA become a national mobile network of Equatorial Guinea?

AB - This paper focuses on the modernization of the first national Mobile Network of Equatorial Guinea, called GETESA. The government's decision to invest and take full control of the network was motivated by the lack of network quality, which had poor capacity, with 69% of the network coverage Received-Signal-Code-Power (RSCP) below 95dBm.

Is 5G-a the world's leading Metro deployment?

Recently, residents in Beijing's urban districts, as well as passengers on the Beijing Metro Line 3, have been able to access faster 5G-A networks, a rollout described by the China Unicom Beijing branch as the world's leading metro deployment, the Global Times observed.

Is ubiquitous global communication possible in Equatorial Guinea?
