Our 5 kW solar package for Sydney comes with the 5kW solar panel Kit which is Light Weight; Fully Anodized and corrosion-resistant; it comes in Tin, Tile, and Clip lock; a Flexible roof mounting solution, and its easy to install.

How much does a 5kw Solar System cost in Australia?

According to the Solar Choice Price Index, the average cost of a 5kW solar system in Australia as of September 2025 is about $1.13 per watt – or about $5,110 – after the STC rebate has been deducted and including GST. Below, you can see the full breakdown of how that average cost varies by capital city in Australia. Important Notes.

Why is a 5kw solar system so popular in Australia?

The 5kW solar system is extremely popular for the average Australian household (using around 25kWh of power daily) because it provides an outstanding ROI (return of investment). The high rates of power production easily balance out the relatively low cost of installation.

How much can a 5kw solar system save in Sydney?

For an average household with 3 to 4 people in Sydney, you can save up to 1600$ per year by installing our 5kW Solar panel system. If you're considering purchasing solar panels in Sydney, our team at Ultimate Energy Australia provides you with a consultation.
