# How much does it cost to ship an solar container outdoor power in Canberra

## Overview

---

What is a solar powered shipping container?

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects—all while reducing carbon footprint and cutting energy costs.

How much does it cost to ship a container overseas?

The total cost to ship a container overseas depends on several factors: For smaller shipments, partial container shipping (LCL) is a cheaper alternative. Here's a breakdown of the average overseas shipping costs for both 20ft and 40ft containers by region: Shipping a 20 ft container can range from \$2,800 to \$15,600 depending on destination.

How much does it cost to ship a 40 foot container?

The cost to ship a 40-foot container typically ranges from \$2,500 to \$5,000, depending on the destination, the shipping company, and additional fees. How much does a new 20-foot shipping container cost?

A new 20-foot shipping container can cost anywhere between \$2,000 and \$3,000.

How do shipping container cost calculators work?

Online shipping container cost calculators like FreightWise help take the guesswork out of your logistics budget. Enter your origin and destination ports, container size, cargo type, and shipping date to get an accurate quote based on current market rates. These calculators also consider seasonal changes and apply appropriate surcharges.
