

# How much is the power of Juba's uninterruptible power supply

## Overview

---

What is the near-term supply prospect for power supply in Juba?

The near term supply prospect for power supply in the Juba distribution area is based on the 40MW hydropower plant at Fula Rapids. As an emergency measure to rehabilitate the existing network and to absorb the possible supply from the Fula Rapids power, immediate investment is required.

What is uninterruptible power supply (UPS)?

Uninterruptible power supply or UPS system, it is a process of AC-DC (commonly known as rectification) and then DC-AC (commonly known as inverter).

How big is the uninterruptible power supply market by 2028?

By 2028, the uninterruptible power supply (UPS) system market is expected to reach 10.46 billion U.S. dollars. In addition, it is expected that the demand for zero blackout time in various industries will continue to increase, which is also expected to promote market growth during the forecast period.

What is ups power supply?

The UPS Power Supply Performs Three Main Functions: Provide ride-through power to cope with voltage dips or short-term power outages, and achieve seamless system shutdown during complete power outages. Uninterruptible Power Supply Components UPS includes the following main units:
