

Huawei UK solar container lithium battery pack customization

Overview

What are Huawei's intelligent lithium battery solutions?

Huawei's intelligent lithium battery solutions provide dynamic peak shifting, transforming traditional backup power systems into efficient energy storage solutions that enhance system flexibility and reliability.

What is the storage system made by Huawei Luna 2000?

The storage system made by Huawei LUNA 2000 is available. The system can be modulated with lithium batteries from 5KWh to 15KWh. High-voltage lithium iron phosphate (LFP) batteries have a very stable and resistant chemical structure. This technology allows optimization of the energy level of the battery pack.

How does the Huawei Luna battery pack work?

This technology allows optimization of the energy level of the battery pack. Huawei Luna consists of the Power Module, the electronic component and 5 kWh battery packs. The modular design allows to expand the storage capacity from 5 KWh up to 15 KWh with the possibility of stacking up to 3 battery packs (of 5 kWh each) for each system.

What is a Luna battery storage system?

Huawei have brought their 30 years of expertise in digital information technology to the world of battery storage! Their modular LUNA system combines an all-in-one look with a modular system build from 5kWh units. Huawei's systems are compatible with their optimisers, carry a 10-year warranty, as well as 100% depth of discharge.

Huawei UK solar container lithium battery pack customization

[Huawei 5kwh home battery](#)

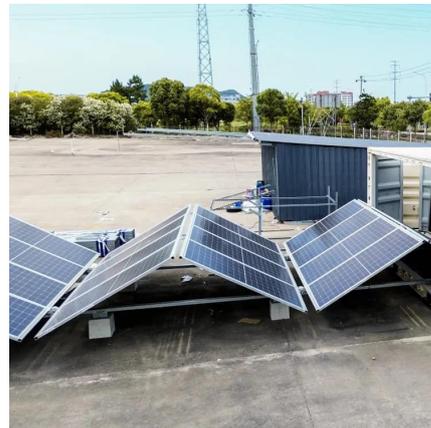

We offer the Huawei 5kwh home battery pack and spare parts, providing storage to new or existing Huawei battery system. If you require a new 5kwh, 10kwh, or 15kwh Huawei battery ...
