# India Solar Air Conditioner

## Overview

---

Are solar air conditioners a good investment in India?

With India experiencing intense summers and rising electricity costs, the demand for solar air conditioners (ACs) is on the rise. Solar ACs are an eco-friendly and cost-effective alternative to traditional air conditioners, powered by the sun's renewable energy.

Which is the best solar AC in India?

Our first pick on this list of the best Solar AC in India is this particular air conditioner from Godrej. The Godrej brand has been synonymous with most Indian households for decades, so you know you're getting a decent product. Coming to the specifications, the AC supports a tonnage of 1.5 tons, making it perfect for medium to larger-sized rooms.

What is a solar air conditioner?

A solar air conditioner is an innovative cooling system that is primarily powered by solar energy. Unlike conventional ACs that rely fully on grid electricity, solar air conditioners use solar panels to convert sunlight into electricity that powers the compressor and other components.

How much does a solar air conditioner cost in India?

One-ton solar air conditioners work well in smaller settings (120-140 square feet). These units would be perfect for tiny bedrooms or offices. The solar air conditioner price in India may vary between ₹70,000 for a low-end model of a different brand or a non-branded one to ₹1,20,000 for a better brand and model. 1.5 Ton Solar Air Conditioners
