British Industrial Competitiveness Scheme:

The industrial strategy will concentrate efforts on places with the greatest potential for our growth sectors: city regions, high-potential clusters, and strategic industrial sites.

Figure 1: A hierarchical tree diagram illustrating a system architecture. The root node is 'Configuration', which branches into 'CPU' and 'GPU'. The 'CPU' node further branches into 'CPU1' and 'CPU2'. The 'GPU' node branches into 'GPU1' and 'GPU2'. Each of these nodes then branches into 'GPU1' and 'GPU2' again, resulting in a total of 16 leaf nodes. The leaf nodes are labeled with 'GPU1' and 'GPU2' and have associated numerical values. The diagram is presented in a dark theme with yellow and red text.
