

Industrial switchgear factory in Italy

Overview

Who makes low voltage switchgears?

Max. The company offers low voltage switchgears as part of its industrial automation solutions. The company specializes in designing innovative electrical systems and is currently engaged in constructing two medium voltage (MV) switchgear stations for a Battery Energy Storage System (BESS) project.

Who manufactures MV equipment & switchgears?

SEL is an Italian company that manufactures MV equipment, switchgears and RMU. SEL is specialized in the design of the complete assembly including all the internal components such as switching devices and circuit breakers of all its various products: RMU, metal enclosed, outdoor, primary and secondary distribution switchgears.

Who is CEG Elettronica Industriale?

CEG Elettronica Industriale was founded in 1965 as a manufacturer of low and medium voltage switchgear, first on a small scale and then at an industrial level. In 1984, its first DC power station was installed enabling CEG to become a supplier of rectifier battery chargers for industrial use and to diversify its product range.

What is ATR switchgear?

ATR is an air-insulated (AIS), metal enclosed medium voltage switchgear, mainly used for secondary distribution power systems. Il Gruppo IME has been a key player in the industrial switchgear market since 1962, specializing in medium and low voltage switchgear and electromechanical systems.
