

# Innovative outdoor power charging pile equipment

## Overview

---

Why are domestic charging piles so popular?

"Domestic charging piles have accumulated significant advantages in technology and product innovation, making them increasingly favored by overseas buyers," said Ye Quanhai, founder of HICI Digital Power Technology.

Why are Chinese charging pile companies so popular?

Chinese charging pile companies have advantages in the supply chain, technology innovation and cost, leading to high demand in overseas markets, industry experts said. With emissions regulations tightening, the transition to vehicle electrification is unstoppable worldwide.

What is the protection level of indoor and outdoor charging piles?

Indoor charging piles should have a protection level of at least IP32 or above, while outdoor charging piles need to have a protection level of at least IP54 to ensure the safety of human bodies and charging equipment in harsh environments with wind, rain, and the need for better insulation and lightning protection.

What is a charging pile?

Charging piles typically comprise a DC power module and multiple charging guns, each capable of independently charging an electric vehicle.
