

Jamaica Commercial Uninterruptible Power Supply Plant

Overview

Will JPS build a solar power plant in Jamaica?

Power utility Jamaica Public Service Company, JPS, is investing US\$300 million to construct Jamaica's largest solar power plant and a battery storage facility, starting this month. The renewable energy facility will replace JPS's aged Hunts Bay.

Who buys electricity in Jamaica?

JPS also purchases additional electricity close to 297 MW from Independent Power Producers (IPPs) such as Jamaica Energy Partners (JEP), Jamaica Private Power Company (JPPC), Jamalco, and Wigton Wind Farm. The grid currently provides electricity access to approximately 97% of Jamaican households. Jamaica Energy Partners (JEP).

When did Jamaica private power become commercial?

The plant achieved Commercial Operations on January 6, 1998. Jamaica Private Power has entered into a 20-year PPA with Jamaica Public Services Company, or JPSC, under which JPSC has agreed to purchase all of Jamaica Private Power's capacity and electricity production. This PPA expires in January 2018.

What is Jamaica's energy policy?

The government of Jamaica adopted a national Energy Policy in 2010, which establishes a goal of 20% of renewable energy in the energy mix by 2030. This Strategic Framework also addresses both the supply and demand energy issues that the country faces.
