# Jerusalem solar Home Energy Storage Project

## Overview

---

What is Israel's biggest PV project?

Teralight has activated Israel's biggest PV project, the 150 MW Ta'anach 1 array, which will produce 310 GWh of energy per year. The facility will be expanded next year with the 104 MW Ta'anach 2 installation, featuring 440 MWh of energy storage.

What is Israel's largest solar project?

Israeli solar developer Teralight said in a recent statement that it has started operating the country's largest solar project, Ta'anach 1. The 150 MW solar array is located in the Jezreel Valley of northern Israel and is projected to annually generate 310 GWh of solar energy.

What is Israel's largest green energy initiative?

The company said that the project, with 340 MW of PV production and 1,110 MWh of storage capacity, will be "Israel's largest green energy initiative," although it is being built in the occupied Palestinian territories. This content is protected by copyright and may not be reused.
