

Kosovo system solar customization

Overview

What is solar 4 Kosovo II?

The “Solar 4 Kosovo II” project is one of the largest energy projects in Kosovo. It will be one of the largest solar plants in Europe and the first in the region in terms of capacity, using clean solar energy for the benefit of heating.

Who is Unisolar?

Based on previous personal experiences in energy systems and having it all the necessary European qualifications for photovoltaic systems, the two co-founders established company Unisolar L.L.C., with the aim of reaching the heights of a successful business in the field of renewable energy in Kosovo and wider.

How Termokos will be able to integrate solar energy and cogeneration?

By installing solar panels over an area of 69,000 square meters, two systems will be integrated: solar energy and cogeneration. This integration will enable an additional thermal capacity of 50 MW, supplying heat to 12,000 new consumers of POE “Termokos” J.S.C.
