

# **Kyiv backup solar container system**

## Overview

---

Will Kyiv's energy storage system reach 27% by 2030?

Kyiv wants to up this to 27% by 2030. Other similar energy storage systems in Eastern Europe include Lithuanian electricity transmission system operator Litgrid's 200-MW units launched in 2023 and a 55-MW battery energy storage system in Razlog in southwestern Bulgaria that went online in 2024.

Did Ukraine get a loan to build a battery energy storage complex?

Solar panels of a rooftop in Kyiv, Ukraine. March 2, 2023. (Julia Kochetova/Bloomberg via Getty Images) This audio is created with AI assistance Ukraine's largest private energy company DTEK secured a \$72-million loan to build one of the largest battery energy storage complexes in Eastern Europe, the company said on June 3.

Who is funding the energy storage project in Ukraine?

Ukraine's second most profitable bank, state-owned Oschadbank, state-owned Ukrgasbank, and PUMB will provide the funding for the project, which includes six energy storage installations across the country, totaling 200 megawatts to power 600,000 households.

How much solar power does Ukraine have in 2024?

Figures from the Solar Energy Association of Ukraine (SEAU) earlier this year showed that the country added around 850MW of solar PV capacity in 2024, the majority of which came from self-consumption systems installed by businesses. It's "become a trend", Semenyshyn says.
