Latvian companies selling energy storage equipment

Overview

Where is the first battery energy storage system in Latvia?

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 MWh in Targale, Ventspils region.

Where are Latvian products sold?

In addition to the export markets above, Latvian products are also sold in the UAE, South Africa, US, Israel, etc. Our products can be found all over the world under our own labels, different private labels, and as ingredients in diverse foods. 26.01.2022.

How will Latvenergo improve the security of supply?

The innovations and infrastructure of Latvenergo will not only strengthen the security of supply but also the development of the Baltic region." BESS, or Battery Energy Storage System, is a technology that allows electricity to be stored with the objective of feeding it back into the grid at times of peak demand.

Why are battery systems important for Latvenergo?

Battery systems play a crucial role in balancing the production volumes of Latvenergo and improving the flexibility of consumption. Chief Financial Officer of Latvenergo Guntars Balčūns: "This investment in battery systems is an important step in the development of our energy sector and long-term sustainability.

Latvian companies selling energy storage equipment
