# Lead-acid battery assembly 12V uninterruptible power supply

## Overview

---

What is a 12V lead acid battery used for?

Our batteries deliver performance and peace of mind and are used in medical devices, alarm systems, fire panels, mobility devices, solar technologies, Uninterrupted Power Supply (UPS) systems, recreational vehicles, and many other industrial and recreational applications. 12V Lead Acid Battery. Brand New, Fresh Stock. 1 Year Warranty.

Can a 12V power supply charge a lead-acid battery?

To get a full charge the current must then be gradually reduced to keep the voltage below gassing level. Good chargers do this automatically, but your 12V power supply won't. A 12V power regulated supply will hardly charge a 12V lead-acid battery at all because it doesn't put out enough voltage.

What are sealed lead-acid batteries used for?

We are a leading manufacturer and supplier of sealed lead-acid batteries. Our batteries deliver performance and peace of mind and are used in medical devices, alarm systems, fire panels, mobility devices, solar technologies, Uninterrupted Power Supply (UPS) systems, recreational vehicles, and many other industrial and recreational applications.

What is UPS battery center?

Specifications are subject to change without notice. UPS Battery Center manufactures a wide range of 12V batteries (sealed lead acid) for just about every application, including: UPS Backup Systems, Alarm Systems, Fire Alarm Systems, Medical Equipment, Test Equipment, Toys, and much more. Please browse our products below.

## Lead-acid battery assembly 12V uninterruptible power supply

### [12V Lead Acid Battery](#)

UPS Battery Center manufactures a wide range of 12V batteries (sealed lead acid) for just about every application, including: UPS Backup Systems, Alarm Systems, Fire Alarm Systems, ...
