

# **Lead-acid battery cabinet 25A**

## Overview

---

Which accumulator batteries are included in the cabinets covered by the technical specification?

The cabinets covered by the technical specification have been designed to contain the hermetic lead-acid electric accumulator batteries.

What is a QQE battery charging & changing cabinet?

QQE Technology are committed to developing an innovative battery charging and changing cabinet, which is suitable for electric vehicles. This design is not only suitable for charging lithium ternary and lithium iron phosphate batteries, but also has a number of advanced protection functions, such as Overload protection and no-load protection.

Where can I find the instruction manual for the batteries?

Inside the door there is a document pocket containing the instruction manual for the batteries. The sections can be fixed together to form a single cabinet. Where required, the cabinet is completed by a special compartment or switch/disconnector cubicle containing the protection equipment.

What are the safety requirements for a lead accumulator?

ENERPOWER has developed a project that adapts to the safety criteria referred to by the current legislation CEI 21-6 / December 1990 for the installation of lead accumulators. Adequate natural ventilation (in the charging conditions indicated by ENERPOWER).
