# Lebanon PV combiner box price

## Overview

---

What is a solar PV combiner box?

Cost-effective solar pv combiner box for sale online, with 4/6/8/10 pv array input numbers, maximum open circuit voltage 1000V, single way input array maximum current of 10A, protection class Ip65. Solar combiner boxes have a current-attack, over current protection, over-voltage protection and a series of perfect protection.

What is a use combiner box?

The use combiner box is essential equipment for all photovoltaic systems. It is considered the interface between the solar inverter and solar panels. The users and installers have also access to a safe control cabinet that isolates the power between live components. The SPD (DS50PV-500/51, DS50PV-1000/51) from renowned.

Why do you need a combiner box for an inverter?

The box consolidates the amounts of cables running into the inverter. Less cables equals more savings on material costs and labor costs. You have also added enhanced protection to the inverter installation combiner box. These boxes protect from overvoltage and overcurrent flowing into your inverter.
