# Lithium power station factory in Brazil

## Overview

---

Who owns lithium in Brazil?

With approximately 539 square kilometers of lithium mineral rights in total, Atlas Lithium owns the largest lithium exploration footprint in Brazil of any publicly listed company. Additionally, Atlas Lithium currently holds an approximate 32.2% ownership stake in Atlas Critical Minerals Corporation.

How much lithium does Brazil produce?

Brazil produced only 600 metric tons (mt) of lithium in 2018, accounting for about 0.7% of the global market. The country's entire output of the mineral was mined by Companhia Brasileira de Lítio (CBL), a company co-owned by CODEMGE.

Is Xiaomi a key lithium producer in Brazil's emerging Lithium Valley?

This pivotal achievement underscores the Company's progress toward becoming a key lithium producer in Brazil's emerging Lithium Valley.

Will OXIS Brasil be the world's first lithium-sulfur battery plant?

Oxis Brasil will be the world's first plant to produce lithium-sulfur batteries at commercial scale. Several other research centers around the world are now also vested in the new technology.

## Lithium power station factory in Brazil

### [Brazil lithium battery energy storage integrated factory](#)

Among the OEMs that have expressed interest in sourcing batteries from the new plant are Brazilian aircraft manufacturer Embraer, Boeing, Lockheed Martin, Airbus, Mercedes-Benz, and ...
