

# Low voltage outdoor power box

## Overview

---

What is a low-voltage electrical box?

Electrical boxes designed for low-voltage use may be backless or in some way more open allowing easier access and wiring. Typical low-voltage signals include video, telephone, and network wiring.

What receptacles does the outdoor ground box accept?

The black Outdoor Ground Box cover assembly prewired is with (1) 30A L5-30R 120V weather resistant duplex receptacles. The brown Outdoor Ground Box low voltage cover assembly is designed to accept up to 12 communication ports and 8 Legrand AVIP devices. Bring power, communications, and A/V while seamlessly blending into any landscape.

What is a brown outdoor ground box?

The brown Outdoor Ground Box low voltage cover assembly is designed to accept up to 12 communication ports and 8 Legrand AVIP devices. Bring power, communications, and A/V while seamlessly blending into any landscape. The black Outdoor Ground Box cover assembly is prewired with (1) 30A L6-30R 240V weather resistant duplex receptacles.

What is the difference between a black and gray outdoor ground box?

The black Outdoor Ground Box low voltage cover assembly is designed to accept up to 12 communication ports and 8 Legrand AVIP devices. The gray Outdoor Ground Box low voltage cover assembly is designed to accept up to 12 communication ports and 8 Legrand AVIP devices.
